Press Release

U.S. 60 Chip Seal Work to Begin July 8th West of Vaughn

The New Mexico Department of Transportation (NMDOT) will begin chip seal operations on Monday, July 8, on a section of U.S. 60 west of Vaughn. The project includes approximately 4 miles of resurface work that will preserve the life of the highway.

Other roads scheduled for chip seal this summer include U.S. 70, N.M. 244, N.M. 532, N.M. 48, and N.M. 220.

During the project motorists can expect short delays between the hours of 7:00 a.m. and 5:00 p.m., seven days a week, weather permitting. Drivers are asked to watch for NMDOT maintenance personnel working in the area, observe temporary construction signing, and reduce speed to the posted speed limits. Remember to please drive safely through work zones.

For up-to-date information on this work, visit the NMDOT road advisory web site at nmroads.com.
