

## **Mercedes-Benz Arrowhead Sprinter is Promoting Its Selection of Maintenance Coupons for the Month of October**

*Phoenix area drivers can receive discounted maintenance when they take their vehicle to Mercedes-Benz Arrowhead Sprinter this month*

PEORIA, Ariz. ([PRWEB](#)) October 15, 2019 -- Vehicle maintenance can get expensive. Between routine maintenance, parts upgrades, and unexpected accidents, it can cost a fortune to upkeep a vehicle. Mercedes-Benz Arrowhead Sprinter is hoping to alleviate maintenance costs for its customers by promoting its selection of maintenance coupons for the month of October.

This month, Mercedes-Benz Arrowhead Sprinter is offering six maintenance coupons that help the owners of new Mercedes-Benz vans. The dealership specializes in Mercedes-Benz vans for businesses including Metris and Sprinter models of cargo, crew and passenger vans. Now through October 31, drivers who purchase a new Mercedes-Benz van from the dealership are eligible to use one of the six maintenance coupons, which give the drivers complimentary Extended Limited Warranties or a complimentary maintenance on a new Mercedes-Benz van.

Businesses who are considering purchasing a new cargo, crew or passenger van are encouraged to get into contact with the dealership's sales team soon to find what they are looking for. In order to take advantage of the maintenance coupons, drivers must make their purchases before the end of the month, which gives them just three weeks to take advantage of these deals.

The dealership's inventory and contact information can be found on its website, [arrowheadmbsprinter.com](http://arrowheadmbsprinter.com). Along with the inventory, drivers can find vehicle research pages to learn more about each Mercedes-Benz van and they can schedule a test drive from the website. To find the dealership's current maintenance coupons, drivers should select "[National Offers](#)" under the "Specials" drop-down menu at the top of the site.
