Email: jacinthe@voyageplan.com

Voyageplan.com and NY-taxi.com have recently launched a joint marketing venture in an effort to promote New York City as a unique and exciting travel destination.

"By simply logging on to www.voyageplan.com or www.ny-taxi.com, our clients can request a New York City package that includes the Circle Line tour of Manhattan or the ever popular Big Apple bus tour", says Charles Schmitt, chief technology officer. "For clients who are using New York City as a departure or arrival point, we also have an online booking engine which handles plane, hotel, cellular phone and car reservations".

Voyageplan.com, a vacation.com member, was created in June of 1999 as a separate online operation of Voyageplan.com Travel, to provide clients with the option of researching and booking their own travel. Voyageplan.com specializes in the best values in cruises, vacation packages, tours and all types of leisure travel.
