Press Release

## **Chip Seal Operations in Curry County**

The New Mexico Department of Transportation (NMDOT) District Two will chip seal pavement on NM 245 near Clovis in Curry County.

Drivers may encounter flaggers where work is being performed, as well as brief, intermittent lane closures. Additional routes scheduled for chip seal work include NM 311 and NM 88.

Chip seal is a surface treatment on the pavement in an effort to preserve the life of the pavement surface by sealing out moisture, which can cause damage to pavement.

For up-to-date information on this project, go to the statewide road information website at: [nmroads.com](http://nmroads.com).
