Traffic Alert

Update for I-25/Missouri Avenue

Las Cruces - The New Mexico Department of Transportation (NMDOT) along with FNF Construction (contractor) continue work along I-25 and the city roadway enhancements of Missouri Avenue and its intersections of Triviz and Don Roser Drive.

FNF has switched the southbound traffic onto the new alignment and working to get the northbound changed by Thursday, September 24th. A left lane closure on I-25 southbound is needed for the placement temporary wall barriers before northbound can be switched. The contractor anticipates the lane closure to be up between the hours of 8:00 a.m. - 5:00 p.m. Monday through Thursday. Drivers are urged to be cautious of the narrow bridge and courteous to merging traffic.

City intersections of Missouri Ave./Don Roser and Missouri Ave./Triviz Drive will continue to have active construction. FNF will begin work on the median curb of Missouri Avenue just east of Don Roser Drive and west Triviz Drive. The traffic will be constricted to one lane in each direction. The traffic constraints will be noticed on September 22 and work will begin the following day for a week.

The south leg of Don Roser Drive between Missouri Avenue and Fairway Drive will continue to be closed. A wall barrier and pavement markings will need to be placed before the reopening of this section.

Complete road closure at Missouri Avenue between Don Roser Drive and Triviz Drive will be less frequent but necessary to complete intersection work. Please follow detours or seek alternate routes during this closure.

To complete the electrical installation, it will be necessary to trench across Don Roser Drive and Triviz Drive. FNF plans to do this work on the weekend of October 2 through October 4. Triviz Drive will be closed between Johns Street and E. Idaho Avenue from Friday at 8:00 p.m. - Monday at 6:00 a.m. The following week, the contractor anticipates work on Don Roser between Missouri and E. Idaho Avenue. We apologize for any inconvenience and will work hard to reduce the time of this closure.

The NMDOT and FNF Construction will have their next month Public Involvement Meeting on Wednesday, September 23, 2015 at 6:00 p.m. at the NMDOT Las Cruces Complex located at 750 North Solano.
