

Inventor and InventHelp Client Designs Vehicle Safety System for Children (NAV-854)

A leading invention company, InventHelp is submitting the BUTTERFLIES RIDE SUPUL FREE to companies for their review.

PITTSBURGH, PA ([PRWEB](#)) January 03, 2016 -- An inventor, from Antioch, Tenn., thought there needed to be a safe and effective way to prevent children from being accidentally left behind in a vehicle, so she invented the BUTTERFLIES RIDE SUPUL FREE.

The BUTTERFLIES RIDE SUPUL FREE provides an effective way to warn drivers if a child is left behind in a parked vehicle. In doing so, it could help to prevent heat-related injuries. As a result, it enhances safety and it provides added peace of mind. The invention features a user-friendly design that is convenient and easy to use so it is ideal for parents with young children. Additionally, the BUTTERFLIES RIDE SUPUL FREE is producible in design variations.

The inventor described the invention design. “My design offers a practical reminder for parents with young children.”

The original design was submitted to the Nashville office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-NAV-854, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
