

InventHelp Inventor Develops Enhanced Vehicle Security System (OCM-118)

Founded in 1984 in Pittsburgh, InventHelp is submitting the AUTO VISION to appropriate companies for their review.

PITTSBURGH, PA ([PRWEB](#)) January 03, 2016 -- "Too many times, accidents occur and nobody knows who's at fault," said an inventor from Bell Flower, Calif. "In order to ensure that you can successfully defend yourself and get any insurance money you are entitled to, I developed this security system."

He developed the AUTO VISION to allow for easy and accurate determination of who is at fault in an auto accident. This avoids litigation hassles and helps law enforcement. The system promotes peace of mind. Furthermore, it is compatible with any vehicle and designed for ease of use.

The original design was submitted to the Orange County office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 12-OCM-118, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
