

## **Driving-Entertainment System Designed by InventHelp Client (HTM-1081)**

*InventHelp is working to submit this idea, the KARAOKE ON WHEELS, to companies for their consideration and potential feedback.*

PITTSBURGH, PA ([PRWEB](#)) December 29, 2015 -- InventHelp is working to submit this idea, the KARAOKE ON WHEELS, to companies for their consideration and potential feedback.

An inventor from Waco, Texas, wanted to make driving more fun and less stressful, so he decided to provide a way to bring the enjoyment of karaoke into a vehicle. "This can help spread some happiness throughout the world," he said.

Including a microphone, the versatile and easy-to-use KARAOKE ON WHEELS enhances driving by adding enjoyment and entertainment. This avoids boredom, alleviates stress and promotes happiness. The inventor has designed a prototype of his idea, and it is patent-pending.

The original design was submitted to the Houston office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-HTM-1081, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
