

## **Inventor and InventHelp Client Develops Truck-Bed Equipment Hauler (HTM-1091)**

*InventHelp, based in Pittsburgh, Pa., is submitting the PORTABLE RAMP & TOOL CONTAINER to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) December 29, 2015 -- "I needed to transport my garden tractor to another location to roto-till my friend's garden," said an inventor from Waterloo, Iowa. "Not wanting to use a trailer, I devised this idea for an easier means of hauling various pieces of equipment, as well as other tools and supplies."

He created a prototype for the PORTABLE RAMP & TOOL CONTAINER to offer a more efficient way to haul equipment. It also provides storage space for ramps, tools and supplies. The design makes it easier to load and unload equipment. It eliminates the need to attach a trailer to the truck. Furthermore, the device is designed for ease of installation.

The original design was submitted to the Houston office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-HTM-1091, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
