PRWeb

BAT Auto Technical announces product review articles, along with an Automotive Products forum.

The articles will provide information to the consumer, to make an informed decision on purchases of specific automotive products and the Automotive Products forum will allow consumer, mechanic and manufacturer to be able to make comments and discuss the products.

(PRWEB) June 4, 2001 -- Â□The staff at BAT Auto Technical has taken the product review articles very seriously. It is something that we are all excited about,Â□ said Tony Murray, one of the founders of BAT Auto Technical. Â□The product review articles will help answer a lot of questions for our readers and we feel the new forum will greatly aid the consumer and manufacturer in communications with each other.Â□

Vehicle owners, do-it-yourselfers, professional mechanics and manufacturers will be able to view the articles and read about the product in action, under professional use. Then questions from the consumer can be brought to the Automotive Products forum and the manufacturer is given the opportunity to respond. Bat Auto Technical believes providing this kind of information will greatly assist the consumer, mechanic and manufacturer, by providing them a quality means of communication that will reach a large audience.

ABOUT BAT AUTO TECHNICAL
BAT Auto Technical is one of a kind automotive technical website, where professional mechanics help people with their vehicle problems by providing professional, quality information. Where Professional, Do-it-Yourselfer, Consumer and manufacturer can gather to gain quality information to meet their needs.
Our goal is to provide a comprehensive source of automotive repair information.
A place where people can come to locate the information they need to take care of their vehicles and save time, money and headaches.
