

## WHAT DOES THE WORLD THINK OF YOUR RIDE?

*Have you ever wondered what the world thinks of your ride?*

([PRWEB](#)) April 29, 2001 -- This Toronto based web site let's you post pictures of your Car, Truck, or Motorcycle for the world to view and judge according to your ride's looks and modifications done. Ridejudge.com is the worlds first online car show that allows users to vote on other users rides on a 10 point scale.

Interesting features on the site include Top and Bottom 10 rankings for any make model or ride category, message boards, member rankings, and a "send online message to the ride owner" feature. Members can also log in to check their ride statistics, view messages sent to them, and view their overall ranking compared to the other rides submitted. Top rated rides do have the chance of becoming the "Ride of the Month" where a more extensive story and added pictures are featured in their own special section of Ridejudge.

All in all, this site is very simple yet we feel that users will spend hours online addicted to Ridejudge.com
