FOR IMMEDIATE RELEASE
NEWS RELEASE

BURNING RUBBER ON THE DIGITAL SUPERHIGHWAY

FLEXING ITS "MUSCLE" TO ATTRACT SELLERS.

Musclecarsnparts.com is open for business. This company is the new "virtual" site for everything performance, particularly cars. Combining the new with the old, Musclecarsnparts.com is bringing the 1967 Ford Mustang and the "48 Buick Roadmaster to the speed of the digital world.

Specializing in the performance car market, Musclecarsnparts.com caters to this high demand market, by providing an auction venue where enthusiasts can buy or sell classic cars and parts. CEO Mike Ash states "The auction medium offers the most equitable arena for both buyer and seller; this way they alone create and define their own playing field."

For sellers, this site is a dream come-true. Registration is free and simple. The site is not complex and is easy to use. Promotional costs are low. Your item, car or part, can stay on the site until it is sold- at no extra cost!! A small fee is charged for a photo and special limited engagement promotions allow you to put up your item for free.

With the international audience of the Net, there is a high viewership to millions of buyers 7 days a week, 24 hours a day. Cars are frequently sold to buyers in countries outside the US for top dollar. The more people that see your advertisement, the better your chances of making a sale!! With the site devoted to performance cars only, the audience is in essence "pre-screened", in other words, car enthusiasts only, not people shopping for toys. Selling the performance cars on this site will give the seller the best price for the item, limited only by what the market will bear.

At Musclecarsnparts.com you will find everything from Mustangs, "Cudas and Chevelles to early Cadillac Limos, Rolls Royces and Italian sports cars; Slant six to Hemi 4 speed. You will find them all here. This site is fast becoming the digital speedway FOR PERFORMANCE CARS.

Musclecarsnparts.com has been online for nearly a year, and continues to expand. It is currently getting over 100,000 page views per month and climbing. The Musclecarsnparts.com team is dedicated to making this site a win-win experience for sellers and buyers alike. So bring your Mustang, Buick, Mopar, etc. to www.musclecarsnparts.com and let's get it sold now!!!!
