

GTE Awards AVeL-TECH With An Automatic Vehicle Location Contract For The City Of Fort Lauderdale Police Department

([PRWEB](#)) August 29, 2000 -- GTE Awards AVeL-Tech With an Automatic Vehicle Location Contract for the City of Fort Lauderdale Police Department

LAVAL,QUEBEC--GTE has awarded AVeL-TECH with an Automatic Vehicle Location contract for the City of Fort Lauderdale, FL Police Department.

The AVeL-NET system will provide real-time tracking of 173 police/fire vehicles. It will enable dispatchers and other host computers connected to the network to graphically display GPS-based position information from fleets of vehicles on a digital map and to perform interactive operations in both real-time and playback modes. The system will run on a Motorola DataTAC network and will coexist with Intergraph's Computer-Aided Dispatch (I/CAD).

By combining the enabling technologies of GPS, wireless data communications and computer networks, this system provides dispatchers with the tools to reduce emergency response times and to significantly improve the safety of enforcement personnel in the field.

AVeL-TECH Background Information

Based in Canada, AVeL-TECH (www.aveltech.com) designs and commercializes a complete suite of products for mission critical organizations, including computer aided dispatch (AVeL-CAD(TM)), automatic vehicle location (AVeL-NET(TM)), message switch (RadioGATE(TM)) and vehicular applications (MobiCAD(TM)).

AVeL-TECH's products have been designed to conform to the highest standards set forth by public safety organizations requiring uncompromized robustness to handle uninterrupted life-saving operations.

The AVeL-NET product line is modular and can be articulated around most operational requirements. AVeL-NET is available in English, Spanish, Portuguese and French and is currently used by several Police, Ambulance, Fire departments and Governmental Agencies in North America, Latin America and Europe.

AVeLNET, RadioGATE and MobiCAD are trademarks of AVeL-TECH Incorporated.
