([PRWEB](#)) February 10, 2016 -- Light Image Quotes announces new car insurance quotes comparison tool. Visit the site to learn more and compare [car insurance quotes](#)

How are auto insurance quotes determined? Rates are based on a number of calculating factors, which are primarily focused on evaluating risk. Such factors include: age, gender, vehicle type, vehicle year, location, accident history, vehicle history, credit history, driving record, and vehicle mileage.

Visit our site to learn more and compare auto insurance quotes with the insurance quotes comparison tool. Find out if you qualify for lower car insurance. Get the cheapest quotes with the Light Image Quotes car insurance quotes comparison tool. Visit the site to learn more and compare car insurance [car insurance quotes](#)
