

Fighting a Traffic Ticket in California Has Been Simplified and Improved with the Release of the GetDismissed Mobile Application Version 2.0.

GetDismissed.com, has released version 2.0 of its GetDismissed traffic ticket fighting web service and mobile application. GetDismissed is the only web service and mobile application in California that allows users to take a picture of their driver's license and traffic ticket, answer a few questions about their traffic ticket and automatically generate all the defense documents required to fight a California traffic ticket by mail using a Trial by Written Declaration.

Westlake Village, California (PRWEB) February 11, 2016 -- GetDismissed.com, has released version 2.0 of its GetDismissed traffic ticket fighting web service and mobile App. The App is free and available through the Apple Store and Google Play.

GetDismissed is the only web service and mobile application in California that allows users to take a picture of their driver's license and traffic ticket, answer a few questions about their traffic ticket and automatically generate all the defense documents required to fight a California traffic ticket by mail using a Trial by Written Declaration.

Version 2.0 of the GetDismissed App is a giant leap forward. According to GetDismissed.com President, Steven Miller, "With version 2.0 we have listened to our customers and have added many additional violation types that they can contest like illegal U-turns, seatbelt, and failure to yield violations. We have also improved on our traffic ticket questionnaire, which allows our system to gather more information about the traffic ticket so that better defenses can be provided to our users."

Alexis Vega, Vice President of Operations, states that "Over that last year we have researched the best way to contest a traffic ticket in California and have implemented what we have found in the new version of GetDismissed. Our questionnaire specifically matches our client's answers to build and generate a proper defense for their specific situation. No other mobile application or web service can do this."

There are over 24 million drivers in California that get issued about 5.2 million traffic tickets every year. Most people do not fight their traffic tickets because the process is so frustrating and takes up so much time. Currently, only about seven percent of those tickets are ever contested. GetDismissed has changed that.

With the GetDismissed App, you do not need to go to court or hire any expensive attorney to fight your traffic ticket. GetDismissed has completely reinvented this category by offering a cheaper, more efficient option.

GetDismissed.com President, Steven Miller added, "We have sought out a way to simplify the ticket fighting process in California in order to remove the frustration associated with fighting a ticket in court. Our goal was to create an easy to use system that alleviates that frustration. At the same time, we wanted to offer the most cost effective way to contest and dismiss a traffic ticket ever seen in the state of California. We believe GetDismissed meets that goal."

About GetDismissed.com

GetDismissed.com, located in Westlake Village, California, was founded in 2014 by Steven F. Miller. The GetDismissed.com service is built on a platform that has assisted thousands of Californians with quickly and

inexpensively filing the necessary paperwork to contest and dismiss their traffic tickets through the Trial by Written Declaration process. The GetDismissed App, available through the Apple Store or Google Play, is Mr. Miller's solution to creating a very inexpensive, fully automated, and user-friendly online service for California drivers to submit their traffic ticket information, process the necessary documents and submit the case to the courts. It's That Simple.
