Ticket Snipers Has Dismissed Over 10,000 Violations Statewide

Ticket Snipers, an online service which has helped clients statewide win a full dismissal of over 10,000 traffic tickets issued in California, now offers two diagnostic tools to help drivers calculate the money that can be saved by successfully fighting a traffic ticket.

In addition to offering a "[Traffic Ticket Dismissal](#)" calculator which allows users to determine the odds of having a ticket dismissed, Ticket Snipers has also developed a state-of-the-art "[Auto Insurance Savings](#)" calculator which predicts the future rise in insurance premiums if the ticket is not contested.

These calculators can be extremely beneficial to drivers, providing them the overall cost of the violation (after traffic school/insurance increases) and an option to fight back. Both calculators are available at no cost or obligation at <https://www.ticketsnipers.com>.

California's Most Efficient and Effective Legal Group

On top of saving California driver's big money, Ticket Snipers also spares clients the time and effort involved in preparing a defense, going to court, and, for some clients, the time and expense of attending traffic school.

Ticket Snipers provides the best legal assistance in the business along with guiding clients through each step of the process. Most matters are resolved without a court appearance. Should the court allow a citation to stand rather than dismissing it, the client still has the right to contest the matter a second time through a new trial with a brand new judge.
