Star EV is advancing electric mobility. Star manufactures low-speed plug-in cars for golf and recreation, street legal travel, off-road and hunting, people moving and commercial applications. Star EVs are manufactured in Simpsonville, South Carolina and are distributed through a diverse retail network across the country. Star EVs come fully-loaded with standard features that competitors offer at a premium. Not just made for the golf course, Star EV also manufactures LSV/NEV golf cars that can be driven legally in neighborhoods and low-speed roads. And with an all-electric vehicle, consumers don't have to choose between convenience and low cost of operation.

Visit the dealership websites for more information on these outstanding Star EV Dealers. Visit [www.starev.com](http://www.starev.com) for detailed information on any of Star EV's 50+ electric vehicles and to find the dealer closest to you. Star EV and its dealers also offer low interest consumer financing up to 60 months through Sheffield Financial.
