

## **1970 Chevelle Tail Lamp Lens Available from OPGI**

*Original Parts Group, Inc. (OPGI) has released RESTOPARTS® brand proprietary manufactured exact reproduction tail lamps lenses for the 1970 Chevrolet Chevelle.*

([PRWEB](#)) February 19, 2016 -- Original Parts Group, Inc. (OPGI) has added an exact reproduction of the original GM factory tail lamp lenses for the 1970 Chevelle to its expanding line of RESTOPARTS® brand proprietary manufactured high quality restoration parts.

The new tail lamp lenses are injection-molded on brand new tooling using factory original, red acrylic for an authentic appearance with the correct clear back-up lens pre-installed. Each lens features a factory correct, silver-gray painted housing and carefully detailed inset trim lines. The Chevelle tail lamp lenses also include authentic GUIDE markings and LH/RH designations on the lens face exactly like the original General Motors (GM) parts. The 1970 Chevelle Tail Lamp Lenses are sold in pairs under OPGI part # CH26466 for \$89.99. Celebrating over 33 years of manufacturing and retailing the highest quality restoration parts and accessories, OPGI is recognized as the nation's number one supplier and manufacturer of classic GM parts and is committed to maintaining that reputation and serving the needs of its customers for years to come.
