

## 'The LiteSaver' Emergency Strobe Light for Safety on the Highway Available Now to the General Public

'The LiteSaver' is a powerful, durable, flashing amber strobe light that can save motorist's lives. It magnetically attaches to the roof, operates from the cigarette lighter outlet and draws only .5 amps. It is compact enough to store in the glove compartment or under the seat. 'The LiteSaver' is an affordable safety device which greatly enhances the ability to be seen when emergencies arise and deters anyone from victimizing vulnerable motorists.

Austin Electronics Announces  $\hat{A} \square$  The LiteSaver $\hat{A} \square$  Emergency Strobe Light

PLANT CITY, FL  $\hat{A} \square$  August 15, 2001  $\hat{A} \square$  Austin Electronics announces  $\hat{A} \square$  The LiteSaver $\hat{A} \square$  Emergency Strobe Light designed to provide added safety to the general public at an affordable price. It allows motorists to be seen and avoided when they have to pull off the road for any reason, and deters the wrong people from stopping to do harm. It plugs into the cigarette lighter and magnetically attaches to the roof of cars or trucks, providing motorists with the ability to be seen and avoided when emergencies arise.  $\hat{A} \square$  The LiteSaver $\hat{A} \square$  is an affordable, compact, continuously flashing high-density amber strobe light, less than  $5\hat{A} \square$  high and under 2 lbs. It stores easily in most glove compartments or under the seat.  $\hat{A} \square$  The LiteSaver $\hat{A} \square$  uses only .5 amps of power providing hours of use without draining the battery, and the powerful strobing light can be seen from over a mile.  $\hat{A} \square$  Save a Life with a Lite! $\hat{A} \square$ 

Until now, strobe lights were primarily used by emergency and construction vehicles.  $\hat{A} \square$  The LiteSaver $\hat{A} \square$  enables all motorists to have the same protection when emergencies arise. Auto flashers are often not enough on our heavily traveled highways. Motorists will be seen from all angles reducing their chances of being hit by another motorist or being victimized by anyone with the wrong intentions.  $\hat{A} \square$  The LiteSaver $\hat{A} \square$  increases the chance of getting help without getting hurt and being seen when visibility is limited.  $\hat{A} \square$  Don $\hat{A} \square$  to a TARGET unseen  $\hat{A} \square$  Be a target SEEN $\hat{A} \square$ .

Austin Electronics is located in Plant City, FL. The company strives to provide all motorists with an affordable high-quality emergency strobe light. For additional information on  $\hat{A} \square$  The LiteSaver $\hat{A} \square$  visit www.litesaver.net or call Janet at Austin Electronics 1-800-877-7513
