

## United Road Launches New Interactive Web Site

*New website allows customers to receive a quote and schedule delivery of their vehicles across country.*

Romulus, Michigan ([PRWEB](#)) January 7, 2006 -- United Road, a national vehicle logistics provider, has launched its new interactive web site, [www.vehicletransportusa.com](http://www.vehicletransportusa.com) to assist its national customer base in shipping single units, sometime referred to as privately owned vehicles. This web site targets all single units as well as multiple unit transports originating from the private sector, internet buyers/traders, dealerships, auction houses, special moves for manufacturers and other origin consignors.

The new proprietary web site provides customers the ultimate interactive web-enabled tool for transporting their vehicles. The site allows customers to obtain instant quotes to move their vehicle anywhere in the U.S.A. Customers may also book their move electronically on the new site using their MasterCard, Visa, Discover, and American Express. In addition, once the vehicle is in transit, customers may track the vehicle throughout its trip.

Some of the features that the website offers:

- Interactive quoting
- Ordering/Booking (using credit card)
- Tracking the vehicle
- General information about transporting vehicles
- Distance calculator of a move
- Enclosed carrier and open carrier transport
- Preparation tips for transporting vehicles
- Insurance limits and optional availability
- Special offers
- Direct assistance and response via telephone with an experienced team of single unit specialist

With an exclusive interactive focus on making it easy for customers to discover cost and book an order, the web site leads the way in delivering the ultimate tool for meeting customers' needs in moving their single unit vehicle consignments.

United Road is a national vehicle logistics provider. Border to border, coast to coast, United Road delivers more than 1,500,000 vehicles each year. Its extensive network of strategically located terminals deliver customers' continental logistic opportunities beyond the scope of smaller carriers. United Road is ranked by Transport Topics, the official publication of the American Trucking Association as the country's 80th largest carrier and in the top 5 of vehicle logistics providers.
