

## **Snow Removal Accessory Invented by InventHelp Client (ROH-137)**

*A leading inventor service company, InventHelp is submitting the PLOW GUARDIAN to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) December 19, 2015 -- A leading inventor service company, InventHelp is submitting the PLOW GUARDIAN to companies for their review.

Snow plows oftentimes push heaps of snow into a driveway that has already been plowed. PLOW GUARDIAN aids a homeowner in preventing this unwanted occurrence.

Designed by an inventor from Buffalo, N.Y., this accessory keeps the end of the driveway clear of extra snow accumulation, which can be heavy and difficult to shovel. It spares homeowners from having to repeatedly shovel their driveway.

The inventor was inspired by witnessing others struggle with this nuisance in her hometown. "I have watched people struggle to remove the excess snow that plows push into their driveways and came up with this idea as a solution."

The original design was submitted to the Rochester office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-ROH-137, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
