

Consumer and Fleet Club Car Precedent Golf Cars Now Available in Premium Metallic Colors

The Customized Colors Customers Want, Competitively Priced and Right from the Factory

Augusta, Ga. ([PRWEB](#)) March 11, 2016 -- To give consumers the automotive-style colors they want, Club Car is now making Precedent golf cars available in these premium metallic colors:

- Metallic Sapphire
- Metallic Mocha
- Metallic Candy Apple Red
- Metallic Platinum

“This gives consumers OEM-quality finishes at competitive pricing, backed by Club Car,” says Consumer Manager Mark Messick. “Our consumer customers require automotive quality metallic paint and we’re very excited to add them to our product offering.”

The new colors are available on all new 2015 and 2016 Precedent golf cars, including the Precedent i2, Villager™ 4, and Stretch Personal Transportation Vehicle.

The Precedent Golf Car Difference

Gasoline Precedent golf cars are powered by an automotive-design overhead cam engine with electronic fuel injection (EFI) that outperforms any other golf car engine on the market.

Electric models feature a high-frequency on-board charger that issues alerts to prevent common user errors and monitors the battery pack after charging to deliver power as needed.

“If you’re looking for neighborhood transportation, the Precedent Stretch golf car has four forward-facing seats, 35" of additional leg room, and a 19-mph Private Use Speed Option,” Messick says. “It’s ideal for families.”

Club Car vehicles are sold through Authorized Club Car Dealers. To find a dealer near you, visit <http://www.clubcardealer.com>.

About Club Car

Club Car, one of the most respected names in the golf industry, is the world’s largest manufacturer of small-wheel, zero-emissions electric vehicles. The company’s Precedent® golf cars, exclusive Visage™ Mobile Golf Information System, and Carryall® turf utility vehicles are integral to successful operations at thousands of courses around the world. Carryall utility and transport vehicles are used in a variety of commercial, industrial, government, rental and resort applications. The company also offers street-legal, low speed vehicles (LSVs) for personal and commercial use, all backed by Club Car’s 50+ year legacy of superior design, manufacture and service. Club Car is part of Ingersoll Rand, and is based in Augusta, Ga. Visit <http://www.clubcar.com>.
