

World Patent Marketing Success Group Launches The Hooker Hitch, A New Automotive Invention To Keep Trailers Securely Attached to Vehicles

World Patent Marketing Reviews A New Automotive Invention. Will Hooker Hitch Be the Next World Patent Marketing Low Cost Success Story?

Miami, FL ([PRWEB](#)) May 16, 2016 -- [World Patent Marketing](#), a vertically integrated manufacturer and engineer of patented products, announces the Hooker Hitch, an automotive invention created to keep trailers properly secured and attached to vehicles.

"The Global Automobile Manufacturing industry is worth \$291 billion," says Scott Cooper, CEO and Creative Director of World Patent Marketing. "Rising demand from emerging markets has boosted revenue. Further technological innovations are expected during the next five years."

"Tow trucks need to be sturdy and strong enough to be able to handle attaching trailers or other vehicles to it," says Jerry Shapiro, Director of Manufacturing and [World Patent Marketing Inventions](#). "By using this new automotive invention called the Hooker Hitch, attaching a trailer to a vehicle is easy, convenient and highly secured."

The Hooker Hitch is an automotive invention which is specially designed to attach a trailer to a vehicle and keep it properly secured at all times. Made of high quality and durable materials, this invention comprises of a trailer, a ball, pine hole, washer, cotter key, nut, tubular portion, a base plate and a draw bar. The base plate is connected to the upper portion of the draw bar via the ball portion. The pine hole is designed to accommodate the bolt and keep it securely in place. With its special and efficient design, this invention prevents a trailer from accidentally being disconnected from a towing vehicle or trailer. What is amazing about this is that it can be used on boat trailers and pop up campers as well. With the Hooker Hitch, one no longer needs to worry about their trailers getting unhitched while travelling.

"The Hooker Hitch is something that people who own trailers would find absolutely useful," says inventor Edward B. "This automotive invention provides added safety and security measures when it comes to attaching trailers to towing trucks or regular vehicles. With this device, trailers will never accidentally get unhitched during the driving process."

Burt Smith, a tow truck driver from Alabama, has this to say about the Hooker Hitch: "As a tow truck driver, one of my constant fears is a towed vehicle accidentally getting unhitched from my truck. Since I started using the Hooker Hitch, I no longer have fears about this."

The Hooker Hitch is an automotive invention which will keep trailers efficiently secured and attached to vehicles at all times.

ABOUT WORLD PATENT MARKETING

World Patent Marketing is an innovation incubator and manufacturer of patented products for inventors and entrepreneurs. The company is broken into eight operating divisions: Research, Patents, Prototyping, Manufacturing, Retail, Web & Apps, Social Media and Capital Ventures.

As a leader in patent invention services, World Patent Marketing is by your side every step of the way, utilizing our capital and experience to protect, prepare, and manufacture your new product idea and get it out to the market.
