

Winpark Adds Mary Mabry to Management Team

Parking management company adds industry veteran to organization.

Houston, Texas ([PRWEB](#)) May 04, 2016 -- Winpark announced today that they have hired Mary Mabry as the company's new senior parking assistant for the prestigious Chase Tower parking garages.

“We are so honored to welcome Mary to the Winpark family,” said Liliana Rambo, Winpark’s president. “Mary brings an impressive wealth of experience and valuable industry expertise that will undoubtedly benefit our client at Chase Tower, and our company as a whole.”

Before joining Winpark, Mabry served as the associate director of parking and transportation for the police department at the University of North Texas. Prior to that role, she was the manager for parking and transportation at the University of Texas at Dallas. Additionally, Mabry previously held the title of manager of parking services under the police department at the University of Texas at Arlington. Her duties included overseeing the operations of parking services and transportation planning, as well as developing and implementing industry solutions for the university community.

“Mary’s skillset is an ideal fit for the Winpark model of high end parking management, uniquely tailored for the Class-A office parking environment,” continued Rambo. “Her expertise as it relates to technology application, management, training and development will absolutely propel our management at Chase Tower to the next tier of operational excellence, something we’re very excited about.”

Mabry is a Certified Administrator of Public Parking (CAPP) and holds a Bachelor’s Degree in Business Administration. As an active member of the International Parking Institute (IPI) since 2006, Mary serves on the Membership and the State and Regional Committees. She has been a member of the Texas Parking & Transportation Association (TPTA) since 1992, served on the Board of Directors since 2008, has been the marketing and communication chair for over four years, and was the secretary, serving on the executive committee. Mabry was the recipient of the 2010 Distinguished Service Award for TPTA and was a noted nominee for the IPI 2012 Professional of the Year. She has authored several industry articles and spotlight segments which have been published in The Parking Professional.

About WinPark

Founded by Hines in 1997, Winpark is a premium parking services provider operating Class-A office tower parking facilities in Houston, Dallas, Phoenix and Austin. Winpark has also developed a proprietary parking management software integration platform designed specifically for large real estate assets. Winpark has successfully managed and consulted on some of the nation's largest Class-A office, retail, mixed-use, and medical facilities, as well as complex design and administrative challenges.

Winpark’s services include the ability to work from the “ground-up,” from build-out and design, through the management and running of complex garages. Cutting-edge software solutions provide for seamless monitoring, and billing and operational oversight. Winpark trains owners and managers to identify solutions and understand exposures, bringing an unbroken chain of accountability to parking operations. WinPark also consults on technology and equipment upgrades, garage traffic flows, accounting controls, fraud detection and space-mix optimization.

Winpark is a member of the International Parking Institute, the National Parking Association, the Green Parking Council, BOMA International and the Property Management Association.

The company was acquired by Propark America in February 2014.
