

## **InventHelp Inventor Develops Easily Visible Vehicle Marker (HTM-138)**

*InventHelp, based in Pittsburgh, Pa., is submitting LAURESA'S IDEA to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) April 04, 2016 -- "When I go to the mall on a busy day, I walk out to drive home, and I realize that I cannot remember where I parked," said an inventor from Mc Kinleyville, Calif. "My car blends in with all the others in the crowded lot. I came up with this so that I could clearly see which car is mine."

She developed the patent-pending LAURESA'S IDEA to make a vehicle easily visible from a distance. The accessory ensures that the vehicle stands out from other similar-looking ones. It enables the owner to find the vehicle quickly in a crowded parking lot. This saves the owner from having to wander aimlessly in order to return to his or her vehicle, which provides added peace of mind. Additionally, the unit is adaptable for use with any automobile.

The original design was submitted to the Houston office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-HTM-138, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
