

## **Inventor and InventHelp Client Develops Cleaning Tool for Vehicle/Truck & Trailer Light Wiring Harness (CBA-2850)**

*A leading invention company, InventHelp is submitting the LIGHT EM UP CLEANER to companies for their possible feedback.*

PITTSBURGH, PA ([PRWEB](#)) April 14, 2016 -- "I found that cleaning corroded plugs and connectors with a knife was time-consuming and tedious," said an inventor from Georgetown, S.C. "This led me to develop a tool specifically intended to clean the contacts of a vehicle/truck & trailer's wiring harness."

He developed the patent-pending LIGHT EM UP CLEANER to offer an efficient way to clean the contacts on a trailer's wiring harness. The tool removes dirt, corrosion, oxidation, etc., that might jeopardize electrical continuity. This ensures clean connections for full operation of the trailer lights. The unit saves time and effort, and eliminates hassles and frustrations. Furthermore, it features a compact, easily portable design.

The original design was submitted to the Columbia office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-CBA-2850, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
