

New at Summit Racing Equipment: Eibach Pro-Touring Suspension Components

Summit Racing now carries Eibach Pro-Touring suspension components and kits. Engineered using the same industry-leading technology found in NASCAR and Formula 1, these Pro-Touring parts deliver superior handling without sacrificing ride comfort.

([PRWEB](#)) May 03, 2016 -- Summit Racing now carries [Eibach Pro-Touring](#) suspension components and kits. Engineered using the same industry-leading technology found in NASCAR and Formula 1, these Pro-Touring parts deliver superior handling without sacrificing ride comfort.

The Eibach Pro-Touring Line features the following components:

Pro-Kit Springs

Pro Kit springs are precision-engineered for a specific chassis. They drop the car about one inch to lower the center of gravity. That reduces squat during acceleration, body roll in the corners, and excessive nose-dive while braking.

Pro-Damper Shocks

Designed and built in-house at Eibach, Pro-Damper shocks are matched to Eibach's Pro-Kit springs. The high-pressure gas, monotube shocks deliver maximum performance without excessive stiffness or ride harshness.

Anti-Roll Sway Bar Kits

Anti-Roll performance sway bars increase the car's roll stiffness to deliver balanced handling without affecting ride quality. The bars are available in a kit for front and rear or separately.

- High-tensile cold-formed steel, tempered and shot-peened for durability
- Forged ends and OEM style pressed bushing locators
- Installation hardware included

Applications

- 1967-81 Camaro and Firebird
- 1964-72 GM A-body
- 1968-74 Chevy II/Nova
- 1963-87 Chevy/GMC C10 (except Anti-Roll Bars)
- 1964.5-70 Mustang
- 1967-70 Cougar

Eibach Pro Touring Kits with all needed components are available for owners of 1967-69 Camaro, 1964-66 GM A-body, or a 1967-70 Mustang/Cougar.
