

Auto Warranty Provider Earns Top 5-Star Rating from TopConsumerReviews.com

TopConsumerReviews.com awards their best 5-star rating to CARCHEX, a leading retailer of Auto Warranties.

Overland Park, KS ([PRWEB](#)) May 03, 2016 -- TopConsumerReviews.com recently awarded their highest five-star rating to CARCHEX, an industry leader in [Auto Warranties](#).

In order to protect themselves against rising costs of unexpected vehicle repairs, many car owners are turning to auto warranties. An auto warranty is a contract between a warranty company and the owner of a vehicle, in which the warranty company agrees to cover the cost of specific repairs over the course of the warranty period.

Warranties typically cover a vehicle for a predetermined number of miles - the higher the number of miles covered, the greater the cost for the warranty coverage. Consumers looking to protect their vehicle with an auto warranty should read the fine print before purchasing, as many warranties have significant exclusions for systems and items that will not be covered in the event of a breakdown or failure.

“CARCHEX has an impressive ten-year history within the Auto Warranty market,” stated Brian Dolezal, of TopConsumerReviews.com, LLC. “They offer five coverage plans to cover almost every possible need, from basic plans for vehicles that are older or have high mileage, to comprehensive bumper-to-bumper coverage. We particularly appreciate their low-pressure sales approach, with a no-haggle, low-price promise in addition to their 30-day satisfaction guarantee. Customers can take their vehicle to any licensed repair facility in the U.S., and CARCHEX will work directly with the repair company to pay any claims, eliminating the need for the consumer to pay out of pocket for repairs and then wait for a reimbursement. Also, all CARCHEX warranties include round-the-clock roadside assistance. With their wide variety of Auto Warranty products, friendly customer service policies, and extremely competitive pricing, CARCHEX earns our top ranking for Auto Warranties in 2016.”
