

## **Automotive Repair Specialists Announces 'Bureau of Automotive Repair Undercover Cars Part 2' FAQ Document**

*Automotive Defense Specialists is well known in California for Bureau of Automotive Repair defense cases. The firm is releasing Part 2 of a 'Frequently Asked Questions' document on BAR undercover cars.*

Bakersfield, CA ([PRWEB](#)) May 27, 2016 -- Automotive Defense Specialists, a California law firm of attorneys defending against Bureau of Automotive Repair citations, accusations, and letters, is proud to announce the second part of its FAQ document on undercover cars in use by the Bureau of Automotive Repair. The first part was published in April, and this second part completes an in-depth look at the so-called 'Bureau of Automotive Repair undercover vehicles,' an area of great controversy in the industry.

“Many technicians and station owners are not aware of the BAR undercover cars until they receive some type of action from the Bureau,” explained attorney William Ferreira of Automotive Defense Specialists. “Our FAQ document helps owners and technicians understand many of the commonly asked questions about these undercover vehicles and 'sting operations' put out by the Bureau of Automotive Repair.”

They are advised to read part 1 as well at <http://automotivedefense.com/2016/04/22/bureau-of-automotive-repair-undercover-cars/>. Both explain issues vis-a-vis Bureau of Automotive Repair undercover vehicles.

### **TYPICAL QUESTIONS ON UNDERCOVER VEHICLES**

Among the common questions asked by automotive repair and SMOG check stations are the following. First, an owner may be supervising employees and yet be held responsible for their misconduct, as alleged by the Bureau of Automotive Repair. Second, the post explains slang terms such as 'clean piping' and 'clean plugging,' which can be a source of great consternation. Third, it goes over the use of statistics by the Bureau of Automotive Repair and in the inherent difficulty of comparing affluent areas of California with depressed areas in terms of compliance with California's stringent SMOG standards. Other questions are addressed as well in this important landmark document, part 2.
