

## **SoundOff Signal Announces New nROADS Product Line that is All About Choices**

*New Product Release: [nROADS Amber Products](#).*

Hudsonville, Michigan ([PRWEB](#)) May 27, 2016 -- nROADS™ is the first tri-color family of amber products on the market. nROADS' mini and mid-size lightbars and beacon solutions provide the broadest range of performance and pricing options within the industry. Snow plows, pickup trucks, utility vehicles, paving equipment, refuse trucks and other equipment each create their own unique warning lighting needs and nROADS meets each need head on.

nROADS uses Nexus Technology, the same extremely bright optical technology used in its successful line of law enforcement products, to create a high-performing amber offering designed specifically for the amber market.

The nROADS product line includes:

Mini Lightbar (17")

Mid-Size Lightbar (24")

Low Dome Beacon

High Dome Beacon

nROADS products were developed with an all new rugged look that reinforces the sturdy designs of today's trucks and heavy duty equipment. nROADS is backed with a five-year, no hassle warranty.
