

## **World Patent Marketing Success Group Launches The Carrier Wagon, A New Automotive Invention For Travelling Or Transporting Cargo**

*World Patent Marketing Reviews A New Automotive Invention. Will Carrier Wagon Be the Next World Patent Marketing Low Cost Success Story?*

Miami, FL ([PRWEB](#)) May 31, 2016 -- [World Patent Marketing](#), a vertically integrated manufacturer and engineer of patented products, announces the Carrier Wagon, an automotive invention designed to provide an effective and safe means to mount a wagon to a vehicle.

"The SUV & Light Truck Manufacturing industry is worth \$162 billion" says Scott Cooper, CEO and Creative Director of World Patent Marketing. "Automakers will focus on producing crossover-utility vehicles and trucks with an emphasis on improved fuel efficiency in order to meet regulatory mandates."

"Whether people decide to go on a long road trip vacation or planning to move to another state, they would need the means to bring all their belongings with them," says Jerry Shapiro, Director of Manufacturing and [World Patent Marketing Inventions](#). "More often than not, people end up renting wagons which are not that safe and secure when travelling long distances. The Carrier Wagon will change all that."

The Carrier Wagon is designed to provide people with a better and improved wagon attachment for vehicles. Made of very sturdy material, this invention features an electric jack, floor, handle, a height adjuster, a latch, LED lighting and pivoted or removable wheels. The electric jack is included in the design to allow the wagon to lift off from the ground while in transit. The latch is durable and strong enough to hold the handle and keep it place while in motion. And when the person has finally reached his or her destination and would need to unload their cargo, the Carrier Wagon can be easily detached from the vehicle and lugged around with the use of the handle.

"Travelling with a great deal of cargo is now made more safe and efficient thanks to the Carrier Wagon," says inventor Adam H. "This is specially designed to steadily and securely stay connected to a vehicle and could be easily detached when no longer needed."

John Mitchell, an avid road trip traveller from Texas, has this to say about the Carrier Wagon: "Whenever I travel for work or on vacation, travelling by road is my favorite option. And thanks to the Carrier Wagon, I am able to literally bring everything but the kitchen sink at home without worrying about whether it will stay mounted to my vehicle."

The Carrier Wagon is perfect for carrying and delivering cargo with the use of a regular vehicle.

### **ABOUT WORLD PATENT MARKETING**

World Patent Marketing is an innovation incubator and manufacturer of patented products for inventors and entrepreneurs. The company is broken into eight operating divisions: Research, Patents, Prototyping, Manufacturing, Retail, Web & Apps, Social Media and Capital Ventures.

As a leader in patent invention services, World Patent Marketing is by your side every step of the way, utilizing our capital and experience to protect, prepare, and manufacture your new product idea and get it out to the

market. Get a patent with World Patent Marketing and the company will send representatives to trade shows every month in order to further advocate for its clients. It is just part of the [world patent marketing cost](#) of doing business.

[World Patent Marketing Reviews](#) enjoy an A+ rating with the Better Business Bureau and five star ratings from consumer review sites including: Consumer Affairs, Google, Trustpilot, Customer Lobby, Reseller Ratings, Yelp and My3Cents.
