

Nationwide Auto Wholesales, Inc. has consolidated operations in Miami, Florida in preparation of expected significant profit gains in 2004 and beyond.

Nationwide Auto Wholesale is a division of GJS Investments, Inc. of Miami, Florida. This privately held corporation concentrates in sales and finance of high-end, luxury, used automobiles from Key West to Tampa, Florida. Under its new 10,000 square feet location, the company's profits are expected to double in 2004 making it a \$10,000,000+ sales company by December.

Miami, Florida ([PRWEB](#)) January 2, 2004 --Through consolidation of facilities, increase in headcount, enhancements to its computer network infrastructure and a bold marketing approach, Nationwide Auto Wholesale is expected to double their annual sales volume in 2004 to over \$10,000,000. In a time when normal corporate direction is to consolidate and reduce overhead, Nationwide Auto Wholesale is going against the trend. Marketing to the upper middle income brackets and above, this group of client is not significantly affected by today's ups and downs in our economy. Individuals in these tax brackets want to look good and are used to luxury. Their success in life has allowed them to be practically unaffected by today's economy. As a result, they are always in the market for an excellent bargain in a high quality, luxury automobile says Eugenio Suarez, President.

Sales in the Miami based firm has been strong all along with steady 20% growth. After using 2003 to refine their marketing and promotional strategies, the company is poised to double its sales and profits in 2004. High sales volumes are expected to be driven by Tent Sales seen as liquidations sales by the general public given the near to wholesale prices the cars are sold for. Financing ability is a very strong point of this company through its extensive experience in the field and its extensive agreements with all types of financial institutions.

In addition to extensive expertise in sales and marketing, the company has developed a network-based system to support its infrastructure through its planned growth. Up to date IS systems and financing software exceed industry's standard for accuracy, turn-around-time, and customer service. Web based systems allows 24/7 interaction with their customers. Web development is also available as a service to their customers. Currently located at 7100 NW 72 Ave, Miami, Florida 33166, the company's future expansion goal includes double its size every 2 years for the next 6 years.
