

Propark Adds Tim Hoppenrath to “Parking Dream Team”

Industry veteran Tim Hoppenrath joins national parking management company as Vice President, Mid-Atlantic Region.

Hartford, Connecticut ([PRWEB](#)) June 22, 2016 -- Propark America announced today that Tim Hoppenrath has joined the company as Vice President, Mid-Atlantic Region.

“We are very excited to welcome Tim as part of the Propark family,” declared John Schmid, Propark’s chief executive officer. “Tim represents the latest acquisition of talent that comprises the ‘Parking Dream Team’ here at Propark. As we continue to expand our national portfolio, it’s tremendously important to add the right parking people to our team, and Tim is the right person to lead our continued growth in the Mid-Atlantic region.”

Hoppenrath joins Propark with over 27 years of parking experience, delivering hospitality service excellence at some of the nation’s most high end, complicated and demanding hospitality and healthcare properties, along with extensive expertise in commercial parking operations. His focus on technology and sustainability within parking resulted in one of the assets under his management to achieve the first Green Garage Certification through the Green Parking Council.

“Propark is a leader in parking technology and a pioneer of parking sustainability,” continued Schmid. “Tim’s heightened focus and experience in these specific areas make him an ideal fit within the Propark family. We believe that his leadership will result in positive bottom line gains for our clients and continued growth for Propark in that region.”

In his new role, Tim will be responsible for overseeing, developing and growing Propark’s Mid-Atlantic region.

About Propark America

Propark America is one of the country’s largest privately-owned parking companies, providing full-service parking solutions for all business types, in over 60 cities across the United States.
