

World Patent Marketing Success Group Introduces Windshield Tear-Off, a New Commercial Trucking and Automobile Invention for Cleaner Windshields

World Patent Marketing Reviews a New Automobile Invention. Will Windshield Tear-Offs Be the Next World Patent Marketing Low Cost Success Story?

Miami, FL ([PRWEB](#)) June 20, 2016 -- [World Patent Marketing](#), a vertically integrated manufacturer and engineer of patented products, announces the Windshield Tear-Off, a commercial trucking and automobile invention that makes it faster and easier to clean a vehicle's windshield.

"The Auto Windshield Repair Services industry is worth \$4 billion," says Scott Cooper, CEO and Creative Director of World Patent Marketing. "Demand for windshield repairs, replacement and tinting will continue to rise until 2019 due to the volume of vehicles on the road."

"Commercial truck drivers have a tough time keeping their windshields clean on long trips and strenuous hauls" says Jerry Shapiro, Director of Manufacturing and [World Patent Marketing Inventions](#). "For this reason, it is important to ensure the cleanliness of their windshields and prevent the drivers from having to take time to keep them clean." The Windshield Tear-Off is a commercial trucking and automobile invention that protects trucks and vehicle's windshield from bugs, stains, scratches and cracks, thus providing clear visibility and added safety features to a vehicle."

The Windshield Tear-Off is an automobile invention that is laid over the outside of the vehicle's windshield, where it remains secured by an adhesive. This invention is made up of multiple thin transparent layers and a bonding layer which aids in its secured attachment to a windshield. In order to use this invention, one puts the layer with the bonding feature over the windshield and gently lays it on for a smooth and precise finish. When the windshield becomes dirty, simply pull off the top layer to gain a clear and clean windshield surface.

"I strongly believe in Windshield tear-offs as a product that can both make a lot of money for manufacturers and investors while at the same time saving money for the buyers", says Inventor Isaac Shipley. "I am very excited to finally see the product being released out on the market and even more excited to see in how many ways it can help benefit drivers all around the world."

Gregory Patterson, a businessman and car owner from New Mexico, has this to say about the Windshield Tear-Off: "Being on the road constantly for work and convention meetings, my vehicle, particularly along the windshield portion, gets dirty. With the Windshield Tear-Off, I can now clean my car's windshield without in minutes."

The Windshield Tear-Off is an automobile invention that will be of great use to any commercial trucker or vehicle owner. With its lightweight design and easy installation features, this amazing invention will help provide a clear view of the road at all times, not to mention save you a whole lot of money on repairs and windshield replacement.
