

MyAuction.Com Offers Live Internet Bidding For NASCAR legend Dale Earnhardt's Camaro SS Intimidator.

MyAuction.Com Offers Live Internet Bidding For NASCAR legend Dale Earnhardt's Camaro SS Intimidator. Auction date is May 11, 2002 in Blaine Minnesota.

([PRWEB](#)) May 11, 2002 -- May 8, 2002--On Saturday May 11, 2002 MyAuction.Com will provide Live Internet Bidding for the Twin Cities Spring Antique, Classic & Special Interest Car Auction where they will be selling one of the Dale Earnhardt "Intimidator" Camaro's.

This car was a limited production vehicle built by NASCAR legend Dale Earnhardt at his Chevrolet dealership in Newton, North Carolina. The production number was originally 150 but only 84 were built due to the tragic accident that claimed Dale's life. This particular Camaro is number 11 and signed by the "Intimidator" himself on the tachometer - this Camaro has been called the "modern day Yenko" by many experts. During our lifetime we may never see another of these "Intimidators" on the auction block. All documentation will be included with the sale.

Originally sold at over \$40,000.00 no one knows what it will bring at auction. You can bid in real time or watch the bidding LIVE over the internet at www.MyAuction.Com or www.MidAmericaAuctions.Com starting at 10:00am Central.

Included in the sale (with internet bidding) are over 130 classic automobiles:

- 1979 Porsche 911SC (Once owned by Governor Jesse Ventura).
- 1936 Packard Bell
- 1954 Corvette Convertible (Roger Vik Collection).
- 1923 Buick Roadster
- 1974 Austin Mini Cooper
- 1931 Ford Model A Deluxe Roadster
- 1955 Ford Thunderbird Convertible
- 1957 Chevrolet Bel Air Convertible
- 1987 Buick GNX

MyAuction.Com broadcasts live auctions over the Internet for fine art, antiques and collectibles; automobiles and motorcycles; and industrial equipment. Bidders from around the world can watch and bid live from their computer as the auction is being conducted. Bids are relayed to a computer at the auction in a fraction of a second for representation.

The robust auction system allows for complete integration of the auction system in existing "Auction House" websites like www.MidAmericaAuctions.Com who is hosting the event this weekend May 6th, 2002. Auction Houses have complete control to add new auctions, edit catalogs, and accept bids live via the internet on auction day. MyAuction.Com's chief competitors are eBay Live, BidSpotter and Sonition.
