([PRWEB](#)) October 16, 2002 -- October 17, 2002--- Ed Litvaitis announced today the formation of RaceMag News. RaceMag News, located at [www.RaceMag.net](http://www.RaceMag.net), is a new company that places the driver and team right in the headline--- the magazine's headline! For only \$36.00 plus shipping, the drivers' photo is on the cover of RaceMag News, a simulated magazine cover. The driver and team send two photographs and driver bio to RaceMag News, and within days, the 'magazine cover' is on the way back to the race team. Copies will be included at an additional nominal fee.

Printed on Epson Premium Glossy Photo Quality Paper to ensure stunning quality, these simulated magazine covers will leave a wonderful impression with the people you are presenting them to. You only need to supply two clear, properly exposed photos and your race team information.

"We feel that RaceMag fills a void in the racing community," RaceMag News creator Ed Litvaitis stated.

"Although many teams have 'hero cards' to give away to the fans, RaceMag News has created a unique memento to capture your teams' accomplishments. It's a terrific gift to hand out and to express your appreciation to your sponsors, crew members, car owners, family members, or anyone that they wish to honor. And one of these would look great in your next sponsorship proposal!"

"We've found from talking to people in the industry that a RaceMag News cover is much more appreciated than a simple plaque or certificate," Litvaitis continued. "Our price structure is one that every local race team can afford."

The "RACEMAG ScreenSaver" is another way to promote your Team and Sponsor's. Simply provide them with six (6) photos of your choice along with a two (2) short comments, team slogan or sayings. With this information, they'll create a Custom ScreenSaver featuring these items! Present a copy of the ScreenSaver to your Sponsors, Team Members, etc... Pay one price and make as many copies of this screensaver as you wish. To order your own RaceMag News or a Custom Team ScreenSaver [www.RaceMag.net](http://www.RaceMag.net). Please note that the address is .NET, not .COM!
