FOR IMMEDIATE RELEASE

FIRST BUSINESS OF ITS KIND IN THIS AREA. MUCH NEEDED MOBILE USED VEHICLE PRE-PURCHASE INSPECTION SERVICE.

Little Rock, AR, September 1, 2002 - Car-Advisors was formed to fill a need in the Pre-Owned Vehicle Market. Unaffiliated with any automobile dealer or garage, to insure an unbiased inspection will be performed.

"If we don't look at your car, at least have someone qualified perform an inspection on the vehicle you plan to purchase. If you don't have it in writing, any problems you find after the purchase will be your responsibility.", says Don Briley, President/Owner of Car-Advisors.

Similar services have been available in cities such as Atlanta, Dallas, and Los Angeles for years. For convenience alone, this should be a worthwhile consideration to anyone who is buying a pre-owned car or light truck.

All Technicians/inspectors are required to be A.S.E. (Automotive Service Excellence) Certified, with 10 years minimum experience in the automotive repair field.
