

## **Go-Ped: The Original, Personal Transportation Device**

*There is a lot of hype about the Segway, i.e: "It" or "Ginger". What most people don't realize is that this form of personal transportation has been around since 1985: Patmont Motor Werks is the American creator of the California Go-Ped® brand and is the Original, World Leader in motorized stand-up scooters.*

([PRWEB](#)) September 27, 2002 -- Livermore, California - USA - September 26, 2002 -In 1985, the Patmont family was the first to successfully market a compact, efficient people-moving machine. This scooter weighs in at only 20 pounds, yet has the ability to move 20 times its own weight or a 400 lb person at a mighty 20 MPH or more. In comparison, the Segway weighs 80 lbs and sells for up to \$3000. Now Go-Ped offers a full range of affordable stand-up scooters for people to experience the beneficial use of personal transportation with efficient, quiet gasoline powered and completely silent electric powered models. These fun, useful people movers are crafted from the highest quality aircraft alloys and equipped with engines that get up to 200 miles to the gallon or on pennies worth of electricity.

For more information on the full line of Go-Ped scooters and a directory of authorized dealers visit [www.goped.com](http://www.goped.com)

### About Patmont Motor Werks and Go-Ped®

Patmont Motor Werks, creator of the Go-Ped brand, is a family owned and operated California company that hand-crafts a full range of personal transport devices, including motorized, electric and self-powered scooters, and has extended its brand to include Go-Gear apparel and accessories. Go-Ped products are inspired and designed to capture the fun, free and trend-setting spirit that is the very essence of the individualistic lifestyle. As the creator of the highest quality personal transport devices, Go-Ped is the market leader in motorized scooter sales, and is an established brand among extreme sports enthusiasts. Employing more than 100 Go-crafters worldwide, Go-Ped operates an nine building campus at their headquarters in Livermore, California, and also operates an international facility based out of Bunbeg, Ireland. Go-Ped branded personal transport devices are available through a dedicated network of dealers in North America, Europe, Asia Africa and the Middle East, and on the Internet at [www.goped.com](http://www.goped.com)
