

## **Safety System Prevents Children From Being Forgotten In Vehicles - Designed by InventHelp Client (DVR-915)**

*One of America's leading inventor service companies, InventHelp is submitting the (FORGET ME NOT) CHILD IN CAR ALARM to companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) September 16, 2016 -- As a mother of four children, an inventor from Highlands Ranch, Colo., was horrified by news stories of senseless deaths of children that have been forgotten in back seats of vehicles. She designed a system to prevent such tragedies.

The patent-pending (FORGET ME NOT) CHILD IN CAR ALARM is a system that provides a reliable way to prevent adults from forgetting children in vehicles. As a result, it may avoid fatalities. Overall, it promotes safety and peace of mind. Easy to use and producible in design variations, the system is ideal for all parents and guardians of children.

The original design was submitted to the Denver office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-DVR-915, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
