

Inventor and InventHelp Client Develops Enhanced Automobile Covering (DVR-819)

One of America's leading inventor service companies, InventHelp is submitting the PROTECTOR FOR CARS to companies for their review.

PITTSBURGH, PA ([PRWEB](#)) September 16, 2016 -- "I have worked as an auto-body technician for 40 years, and during that time I have worked on a lot of vehicles that were damaged because they were parked outdoors," said an inventor from Colorado Springs, Colo. "In order to keep vehicles safe and protected, I developed this cover."

He developed the PROTECTOR FOR CARS to protect a vehicle parked outdoors from the elements, airborne debris, dust, etc. The cover safeguards against scratches, dents and dings, which reduces the need for body work and repairs. The device is easy to set up and take down. It provides added peace of mind to vehicle owners. Furthermore, the cover is adaptable for use with any automobile.

The original design was submitted to the Denver office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-DVR-819, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
