| Topeka, KS- The anti-abortion billboard truck known as the $\hat{A}\Box$ Truth Truck $\hat{A}\Box$ will be accompanying the inaugural festivities in Topeka, Kansas, today and tomorrow. The huge graphic pictures covering the truck are representative of the children who are murdered here in Kansas. Wichita,, Kansas is known world-wide as the abortion capitol of the world due to the infamous work of late-term abortionist George Tiller. |
| Tiller contributed over \$10,000 to the Sebelius campaign and ran a political action committee that pumped over \$450,000 in to defeating Sebelius rival for governor, Tim Shallenburger.                                                                                                                                                                                                                                                            |
| Sebelius is long known for her radical leftist political views including abortion rights. Sebelius unashamedly declares, $\hat{A}\Box I$ am proudly pro-choice. $\hat{A}\Box$                                                                                                                                                                                                                                                                        |
| Therefore, Operation Rescue West has vowed to hound and dog her every move. The inaugural party will be visited by the Truth Truck laden with pro-life signs, literature, and pictures of aborted children.                                                                                                                                                                                                                                          |
| Operation Rescue West asks those hosting the inaugural celebrations to cancel and withdraw support from the pro-baby killer Sebelius.                                                                                                                                                                                                                                                                                                                |
| The Truth Truck will be stationed outside the Assumption Church across from the Capitol building on Monday morning at 9:30am protesting the Interfaith Spiritual Services. All those opposed to child-killing are invited to join the truth team.                                                                                                                                                                                                    |
| $\hat{A}\Box 93\%$ of all late term abortions committed in Wichita are on women coming from outside the State. Tiller is selling his $\hat{A}\Box$ services $\hat{A}\Box$ thus making Kansas the Abortion state. We need to send a message of life to Kathleen Sebelius. Kansans have had enough abortion and enough killing. $\hat{A}\Box$ Troy Newman, Director Operation Rescue West.                                                             |
