

SLIDE SYSTEMS TRUCK ACCESSORY INTRODUCED

Slide Systems is pleased to announce that it has expanded its theme of lifestyle-oriented truck accessories by teaming up with RV-INNO (www.rv-inno.com) to provide a full line solution for biking, skiing, and boarding enthusiasts who own full size pickup trucks.

This combination has been designed to work with the Slide System™, therefore making it compatible with other truck accessories. For example, the Rollerbox™ series of truck storage boxes (also by Slide Systems) roll underneath the rack from cab to tailgate for easy access. The result is secure storage of bikes, skis, boards, and related sporting gear.

([PRWEB](#)) February 5, 2003 -- Slide Systems introduces another lifestyle-oriented truck

SLIDE SYSTEMS TRUCK ACCESSORY INTRODUCED

Â

Slide Systems is pleased to announce that it has expanded its theme of lifestyle-oriented truck accessories by teaming up with RV-INNO (www.rv-inno.com) to provide a full line solution for biking, skiing, and boarding enthusiasts who own full size pickup trucks.

This combination has been designed to work with the Slide System™, therefore making it compatible with other truck accessories. For example, the Rollerbox™ series of truck storage boxes (also by Slide Systems) roll underneath the rack from cab to tailgate for easy access. The result is secure storage of bikes, skis, boards, and related sporting gear.

Installation is easy. The Slide System rails mounts through stake pockets without drilling into the truck. An RV-INNO ski, bike, or snowboard rack is then installed on top of the system. Once assembled, the racks may be installed or detached in minutes without tools.

The new relationship with RV-INNO adds to Slide Systems' theme for its user-oriented truck accessories: "life rolls on." Learn more by calling 1-888-91-SLIDE or visit www.slidesystems.com.
