

TAKE CHARGE OF YOUR DIE-CAST MODEL COLLECTION

So Rare! Collectibles provides software to enable an easy method of organizing and managing our collections of die-cast models.

Saratoga, CA ([PRWEB](#)) July 23, 2003 - Die-Cast models of cars, trucks, motorcycles, etc. are great items to collect to remind us of our favorite things and to possibly achieve a profit.

Now, So Rare! Collectibles provides software to enable an easy method of organizing and managing our collections. This new software database program is available at no charge--FREE!

The So Rare! Collectibles Die-Cast Collection Database features:

- * Pertinent information, including vehicle maker, model, type, color, scale, manufacturer or brand, identifier or part number, production run quantity, etc. as well as multiple pictures of each die-cast model may be inserted into the database.
- * Preinstalled data for vehicle maker (Auburn, Audi, Auto Union, BMW, etc.), vehicle types (coupe, roadster, sedan, etc.), scale (1:18, 1:24, 1:32, 1:43), manufacturer (Corgi, Matchbox, Motormint, etc.) and collectible condition (Mint, Very Fine, etc.).
- * Print complete die-cast model reports and lists.
- * Reports with or without pictures may be filtered to display just the die-cast models desired. Reports may be sorted by many parameters such as maker in ascending or descending order.
- * Minimum computer expertise is required to use the software.

This free software available now and may be downloaded @ <http://sorare.home.att.net>.
