

ATM Restyle Expands Available Truck Accessories

New products have been added to the growing truck accessories site which features a wide selection of tonneau covers.

Hamburg, NY ([PRWEB](#)) January 7, 2007 -- The team at ATM Restyle continues to add and build the line of [truck accessories](#) available on the growing site. The over-all look and feel of the site has been enhanced over the past several months.

Recent additions to the line of winches available on the site are the Warn Power Plant HD & HP. These winches include the following features:

- A powerful air compressor combined with a high-duty winch lets tradesmen, farmers, and ranchers get more done in less time.
- Runs air tools such as nail guns and impact wrenches, so there's no need to lug a large, cumbersome air compressor to the jobsite.
- All-in-one unit is simple to install so you can spend more time working. Accessories, such as Auxiliary Air Tanks and Plumbing Kit are available to store more air on your truck.

On the winch side, the Warn PowerPlant Dual Force HD has been engineered to handle those longer, harder pulls thanks to a 12,000 lb. line rating. The standard thermometric switch prevents the PowerPlant from overheating.

Another recent addition are the custom bug shields made by Stampede Truck Accessories. These bug shields come in various designs including the camo series and specialty series. The specialty series contain Unites States flag patterns.

ATM Restyle continues to showcase the featured truck accessory on the site [tonneau covers](#). With recent price reductions and updates to include tonneau covers made for new trucks in 2007 the site offers a robust truck cover selection.
