

Rookie Racer Kelly MacPhaden takes a 2nd Place Finish in the Formula F1rst Championship and 3rd Place in the Canadian Automobile Sports Clubs Championship

Racing Season Ends for Rookie Driver and Demonstrates She is Made for Racing!

([PRWEB](#)) October 3, 2003 --Kelly MacPhaden, the Ajax resident, who only discovered her racing talents over a year ago, had an outstanding year in Ontario Regional Racing.

Kelly, not only out performed her own expectations in her racing abilities, she has perplexed her friends, and racing colleagues that she can drive with a competitive spirit. Kelly has accomplished numerous podium finishes this year with the brass to prove it!

Although she has had her share of sitting out due to mechanical failures and not finishing races, she continually strives at being the best she can in adverse conditions. Kelly experienced, a collision which almost ended her racing career earlier on in the season. Continual changes to the car set ups, engine malfunctions, stormy weather conditions, coupled with being a first time open wheel driver, has made her the class of the field. Her polite demeanor on and off track is a true testament to a professional in the making. Kelly's crew chief has even commented that she has come along way in such a short period of time as a rookie.

Kelly was the first female to lead the Formula F1rst championship earlier on in the season. Kelly was unable to hold on to the lead due to major mechanical setbacks. Kelly's transfered her energy to the track and kept her head up and chalked it up as being a part of racing growing pains.

"I would like to say thank you to the British Automobile Racing club, Canadian Automobile Sports Club, and to my sponsors: Hydraco Cylinders, Rock Steady Street Graphics, Regalis Restaurant, Guardsman Security Service, Lanigan and George Consulting, Reptile Advertising and Mothers Against Drunk Driving Canada-Toronto Chapter. I am looking forward to new challenges and a new beginning next year in taking the next step to my dream".

Kelly is currently in transition to competing in the Formula Ford Series.
