

ÂThe Breakdown CenterÂ, has opened its doors and is ready to service the trucking community for all of your commercial vehicle breakdown management needs.

New commercial vehicle breakdown center dispatching service is now in business and ready to help with all of you breakdown needs

([PRWEB](#)) October 24, 2003 -- ÂThe Breakdown CenterÂ, has opened its doors and is ready to service the trucking community for all of your commercial vehicle breakdown management needs.

ÂThe Breakdown CenterÂ is a truly professional service that handles only commercial vehicle breakdown management.

It is not a typical Âcall centerÂ in that they only provide services for trucking and commercial vehicle leasing companies.

They opened their doors with the commitment of never becoming a call center that handles any type of business calling needs, and simply dedicate their entire service to commercial units out on the highways and by-ways of America.
