

RC Racing USA's new site strives to be the ultimate resource for remote control and R/C car drivers, racers and enthusiasts.

An awesome new resource site for those interested in everything relating to remote control cars and racing. From R/C Tracks, How To's, Racer Rides Gallery, Downloads and more, RC Racing USA has got you covered.

([PRWEB](#)) November 2, 2003 -- If think that r/c cars are the things you buy at radio shack or wal-mart then think again. Get a small preview of what the competitive world of r/c racing is all about at www.rcracingusa.net

R/C car driver/racer Heather Compton, has built a new website that is just the begining of a huge resource website for competitive r/c car drivers and enthusiast. The new site will include information for r/c cars from 1/18th to 1/8th scale cars and truck. The site will host information for on-road and off-road racing and tuning. Not to mention tons of R/C related items for download.

The future plans of RC Racing USA include hundreds of tutorials and how to's, and an on-line bulletin board. The bulletin board will give r/c racers everywhere aplace to talk and share their experience and knowledge in r/c.

So get ready for a great racing website on a smaller scale and let RC Racing USA be your guide.
