

J&M Enterprises, Creator of the Bullseye Gooseneck Hitch Guide, Announces Launch of New Website

J&M Enterprises, the patent holder of a device known as the Bullseye Gooseneck Hitch Guide, announces the launch of their new website: www.bullseyegooseneckhitchguide.com. The new website has been designed to create a user friendly experience for customers and provide an easy way to shop.

([PRWEB](#)) January 06, 2014 -- J & M Enterprises, creator of the Bullseye Gooseneck Hitch Guide, is pleased to announce the launch of their new website, www.bullseyegooseneckhitchguide.com. The Bullseye Gooseneck Hitch Guide gives a driver the ability to hook-up a truck to a gooseneck trailer with minimal effort. The removable guide mounts to the trailer coupler and guides the trailer into the correct position above the hitch ball as the towing vehicle backs up.

By offering consumers a unique solution, when it comes to hooking-up a truck to a trailer, J&M Enterprises has seen the positive results and effects of their product. The Bullseye Hitch Guide has proven to streamline the coupling process with its mounting bracket and 'V' shaped guide. After alignment, the 'V' shaped guide is removed and stored inverted in the mounting bracket, ready for the next use and completely out of the way of the coupler's locking mechanism and safety chains.

In an effort to assist the public with an easier, safer, more efficient, and less frustrating truck to trailer coupling, J&M Enterprises has delivered the solution. One consumer even commented saying, "It was a constant battle getting in and out of my truck. I couldn't be in two places at once to watch the hitch ball and trailer coupler while backing up my truck!" The Bullseye Hitch Guide has become the simplest solution for hooking up a gooseneck trailer and hauling equipment, machinery, animals, and more. The installation process takes approximately ten minutes and only requires a single wrench. It has been tested on a list of different makes, models and weights of gooseneck trailers and reviewed by many satisfied users. The Bullseye Hitch Guide has a wide window of compatibility.

ABOUT:

J&M Enterprises, the patent holder for the product known as the Bullseye Gooseneck Hitch Guide, has emerged with positive reviews regarding the product. They have developed the simplest process to hook-up a truck to a gooseneck trailer. J&M Enterprises is rewarding consumers with a less frustrating, safer, and more efficient truck to trailer coupling process. The Bullseye Hitch Guide has been tested by users in multiple markets and is manufactured in the USA to extremely high standards. The product is designed to stand the test of time and benefit the user for years to come. See the video and learn more at the new website:
