Sunnyvale, CA ([PRWEB](#)) December 30, 2014 -- The owners of Da-Les Auto Body, a full service auto body repair facility located in Sunnyvale, Calif., are proud to announce that the shop has consistently earned excellent ratings on social media sites like [Yelp](#). From customers like Priyank C. from Mountain View who praised the company for its great and speedy service, to Richard from Sunnyvale who said his banged up truck now looks brand new again, Da-Les Auto Body has an average rating of 4.5 stars.

This philosophy has been part of the Da-Les way of doing business since they first opened in 1975, and it has helped to make the auto body shop one of the highest rated businesses in the area.

“After 40 years in the business, we usually have a pretty good idea of how much it's going to take to repair your vehicle,” the new blog noted, adding that the team at Da-Les Auto Body starts with a thorough inspection of the areas that were directly affected by the accident, as well as other possible damage points such as the frame and crucial safety or operating components like the engine and brakes.

“Once we've determined what does and doesn't need attention, we provide an estimate to you and your insurance company, to help get your claim under way.”

In addition to priding themselves on offering great service from start to finish, Da-Les Auto Body also advocates for safety programs like “Avoid The Text To Avoid The Wreck” and back-to-school safety inspections of key components of vehicles.
