

New at PowerSports Place by Summit Racing Equipment: Gibson Side X Side Performance Slip On Mufflers

Gibson Side X Side Performance Slip On Mufflers deliver noticeable power gains, with the lowest sound output in the market. The Suspended Flow Superflow muffler design has a louvered and chambered internal core eliminates the need for packing material, along with the potential for a blow out.

Tallmadge, OH ([PRWEB](#)) January 08, 2015 -- Gibson Side X Side Performance Slip On Mufflers deliver noticeable power gains, with the lowest sound output in the market. The Suspended Flow Superflow muffler design has a louvered and chambered internal core eliminates the need for packing material, along with the potential for a blow out. The mufflers are available in either a sleek black ceramic coated or brushed stainless steel finish. The can is sealed with a polished T-304 stainless steel end cap.

Gibson Side X Side Performance Slip On Mufflers were featured on Episode 23 of PowerNation's Xtreme Off Road. Watch the full episode [here](#).

The mufflers are available for most popular Polaris, Kawasaki, Can-Am, and Yamaha Side X Sides. Each one carries a USFS-approved spark arrestor. It is a bolt-on installation with no modifications to the vehicle required.
